COOKIE POLICY

Last updated on 10 July, 2018

To make this site functional for you, we sometimes place small data files called cookies on your device.

What are cookies?

A cookie is a small text file that a website saves on your desktop or mobile device when you visit the site. It enables the website to remember your actions and preferences (such as login, language, font size and other display preferences) over a period of time, so that you don't have to keep re-entering them whenever you come back to the site or browse from one page to another.

How do we use cookies?

We use cookies for a variety of reasons, including : (i) To analyze the usage of our Products and Services; (ii) To provide a personalized experience; (iii)To allow you to easily login to use our products services; and (iv) To help you use our Products and Services with ease. It will also provide you with a customized experience and recognize you when you return back to the site.

We use the following cookies:

Cookie Name	Purpose
Session_id	Unique id for each session storing user attributes for the application

You can get your web browser to set an alert for you, about attempts to place cookies on your desktop. You have the pleasure of limiting the types of cookies you want to allow for or refuse cookies altogether. However, if you refuse or disable cookies you may not be able to use some or all of the features of our services, thus your experience with the site might be difficult or less functional.

How to control cookies

You can **control/delete** cookies if you wish to. You can delete all cookies that are already on your desktop and can set most browsers to prevent them from being placed. By doing this, you may have to manually adjust some preferences every time you visit a site and some services and functionalities may not work.
